IBSEC-AR/9
30 June 1968

UNITED STATES INTELLIGENCE BOARD

SECURITY COMMITTEE

Ninth Annual Report

I. AUTHORIZATION

The USIB Security Committee operates under DCID 1/11
(new Series) revised 4 May 1964.

II. PERIOD COVERED

This report covers activities during the period 1 July 1967
to 30 June 1968.

III. OBSERVATIONS

During this reporting period, one Committee action, long
in preparation, was completed. This was the revision of uniform
personnel security criteria for access to compartmented intelligence.

The Committee also initiated new studies during this period,
including an examination of 25X1A13d [REDACTED] and
the establishment of a working group to explore the problems of
security in the automatic data processing environment.

As was mentioned during the last reporting period, the
problem of unauthorized disclosures of intelligence in the press

~~SECRET~~

~~SECRET~~

has continued to be a major concern of the Committee. During March of 1968, for example, the Secretary of Defense directed all DOD components to review their procedures in this field. It appears that this will be a continuing problem to the Committee and it is noted that often there is no practical resolution of the problem.

IV. ACTIVITIES

A. Annual Report of the Measures Taken by Members of the Intelligence Community to Enhance the Nation's Counterintelligence Posture

This annual report covering calendar year 1967, was submitted to the USIB Chairman on 29 December 1967 and was forwarded to the White House and to the President's Foreign Intelligence Advisory Board (PFIAB) on 30 January 1968. The report noted the physical, technical and personnel security measures taken by the intelligence community with special emphasis on overseas activity.

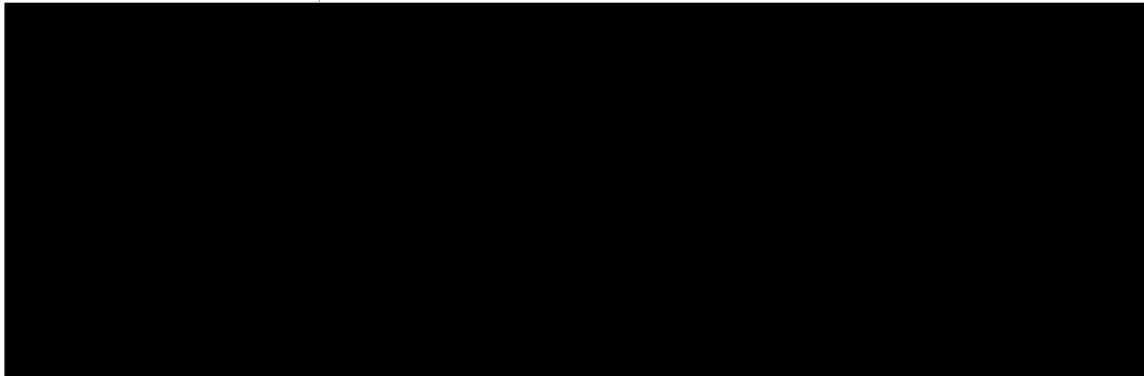

B. Uniform Personnel Security Standards and Practices Governing Access to Sensitive Compartmented Information

As the result of certain questions raised by Senator Tydings and Chairman Macy, CSC, the DCID 1/14 which

~~SECRET~~

was originally issued on 23 June 1967 was revised. After lengthy study and discussion, such revision was completed and the DCID was issued on 1 July 1968.

25X1A13d

D. Security Problems in the Automatic Data Processing Environment

The Committee has established a working group consisting of professional security officers from each Member Agency to consider the problems of security as applied to the Automatic Data Processing field.

E. Study of Provocations and Harrassments Against Attaches and Other U. S. Officials in the Soviet Bloc Areas

During this reporting period, this study was completed, containing input from the Member Agencies vis-a-vis the methods and techniques used by the Russian and Satellite Intelligence Services against U. S. officials in the USSR and in the Satellite countries. The study was circulated to all of the Member Agencies for use in conducting denied area briefings.

F. Lectures and Demonstrations

During this reporting period representatives of the Member Agencies attended a presentation of the CIA reindoctrination lecture. Also during this reporting period, representatives of the Member Agencies attended a demonstration arranged by DIA. This demonstration was presented by [REDACTED] and concerned the detection of unauthorized entry into safes and pouches.
